

## SAFETY DATA SHEET

*In accordance with the criteria of Regulation No 1907/2006 (REACH) with further changes.*

### SECTION 1: IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

#### 1.1 Product identifier:

Super Aromas **Pink Bubble Gum, concentrated**  
Product code: **SA-2022136**

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against:

Concentrated flavour mix, for flavoring food, according to the quality specification.

#### 1.3 Details of the supplier of the safety data sheet:

Supplier: Sobucky Poland Sp. z o.o. Sobucky Ltd Sp.k.  
Address: Tomsza Zana 11 A, 20-601 Lublin, Poland  
Phone: (+48) 530 900 757  
E-mail address of the person responsible for the information card: [info@sobucky.com](mailto:info@sobucky.com)

#### 1.4 Emergency telephone number:

112 (general emergency phone number)

### SECTION 2: HAZARDS IDENTIFICATION

#### 2.1 Classification of the substance or mixture.

Classification according to 1272/2008/EC:  
Product is not classified as hazardous.

#### 2.2 Label elements.

**Signal word:** not applicable.

**Pictogram:** not applicable.

**Hazard Statements H-phrases:** not applicable.

**Contains eugenol, linalool. May produce an allergic reaction.**

**Precautionary statements P-phrases:** not applicable.

### 2.3 Other hazards.

This mixture does not meet the criteria for persistent, bioaccumulative and toxic or very persistent and very bioaccumulative in accordance with Annex XIII. This mixture and its ingredients are not included in the list established in accordance with Article 59(1) for having endocrine disrupting properties, and they are not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. **EUH 208: Contains eugenol, linalool. May produce an allergic reaction.**

## SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1 Substances.

Not applicable.

### 3.2 Mixtures.

Hazardous components:

Component	CAS No.	EINECS No.	w/w %	Index No./ REACH No.	Classification according to the Regulation (EC) No 1272/2008
Eugenol	97-53-0	202-589-1	≤ 0,5	Not applicable/ 01-2119971802-33-XXXX	Eye Irrit. 2, H319 Skin Sens. 1, H317
Linalool	78-70-6	201-134-4	≤ 0,1	603-235-00-2/ 01-2119474016-42-XXXX	Eye Irrit. 2, H319 Skin Sens. 1B, H317 Skin Irrit. 2, H315
Methyl salicylate	119-36-8	204-317-7	≤ 0,1	Not applicable/ 01-2119515671-44-XXXX	Acute Tox. 4, H302 Eye Dam. 1, H318 Repr. 2, H361

Full text of H - phrases in section 16.

## SECTION 4: FIRST AID MEASURES

The usual precautions for handling chemicals should be applied. In case of any symptoms of concern – call medical help.

### 4.1 Description of first aid measures.

INHALANTION:	Remove from exposure to fresh air immediately. In case of lack of breathing, apply artificial respiration. Get medical aid if cough or other symptoms appear.
SKIN CONTACT:	Wash with water and soap. Remove contaminated clothes. If irritation persists or any tissue damage effect is apparent, obtain medical advice.
INGESTION:	If swallowed accidentally, do not induce vomiting. Rinse mouth with water. Obtain medical attention.
EYE CONTACT:	Immediately wash out with plenty of water for at least 15 minutes, also under the eyelids. If irritation persists wash with an ocular lotion standard Dacryoserum, consult with an ophthalmologist.

#### 4.2 Most important symptoms and effects, both acute and delayed.

If the mixture comes into contact with the skin, irritation and redness are possible. In case of eye contact, they are possible irritation.

#### 4.3 Indication of any immediate medical attention and special treatment needed.

Persons with pre-existing skin, eye, or respiratory disease may be at increased risk from the irritant or allergic properties of this material.

### SECTION 5: FIREFIGHTING MEASURES

#### 5.1 Extinguishing media.

Extinguishing media: Foam, carbon dioxide, powder, water spray.

Inadvisable: Direct water jet.

#### 5.2 Special hazards arising from the substance or mixture.

Flash point: 53 °C.

Hazardous decomposition compounds: CO, CO<sub>2</sub>. Do not inhale the smoke or mist.

#### 5.3 Advice for firefighters.

Personal protection typical in case of fire. Wear suitable respiratory equipment. Cool down containers with water from safe distance to prevent bursting. Remove containers from the endangered area if possible.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures.

For non-emergency personnel:

Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. In case of large spills, isolate the exposed area. Ensure adequate ventilation. Avoid contact with skin and eyes. Avoid contact with spilled material. Danger of slipping, do not pass through spilled material. Wear adequate personal protective equipment. Do not allow the product to get into mouth.

For emergency responders:

If specialised clothing is required to deal with the spillage, take note of any information in Section 8.

Suitable and unsuitable materials See Section 10.5. See also the information in "For non-emergency personnel".

#### 6.2 Environmental precautions.

In case of release of large amounts of the product, it is necessary to take appropriate steps to prevent it from spreading into the environment. Notify relevant emergency services.

### 6.3 Methods and material for containment and cleaning up.

Soak up with liquid-binding material (e.g. sand, universal binding agent, diatomaceous earth). Collect spilled material in containers. Disposal in accordance with the local legislation. Clean the contamination place.

### 6.4 References to other sections.

See Section 7 for information on safe handling.

See section 8 for information on personal protection equipment.

See Section 13 for information on disposal.

## SECTION 7: HANDLING AND STORAGE

### 7.1 Precautions for safe handling.

Handle in accordance with good occupational hygiene and safety practices. Avoid contact with skin and eyes. Do not inhale vapours. Ensure adequate ventilation. Before break and after work wash carefully hands. Keep not used containers tightly closed. Do not allow the product to get into mouth and eyes. Keep all heated processes at the lowest necessary temperature in order to minimize emissions of volatile chemicals into the air. Where chemicals are openly handled, access should be restricted to properly trained employees. Close packing after use. Reproduce labelling if transfer in another container.

### 7.2 Conditions of safe storage, including any incompatibilities.

Keep containers tightly closed in cool, dry and well-ventilated area. Keep away from food, beverages or feed for animals. After opening seal the container and store in an upright position to prevent leakage. Avoid heat and ignition sources. Keep away from direct sunlight. Tightly seal unused container.

### 7.3 Specific end use(s).

No information about the applications other than those listed in subsection 1.2.

## SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1 Control parameters.

Component	CAS	TWA (ppm or mg/m <sup>3</sup> )	STEL (ppm or mg/m <sup>3</sup> )
Not applicable	Not applicable	Not applicable	Not applicable

### 8.2 Exposure controls.

#### Control procedure:

Ensure adequate ventilation.

#### Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment. Under normal use respirator is not required. However, if applied under circumstances where a mist is likely to appear handle using a fume cupboard or use engineering control system allowing an exhausted air to be mechanically removed from the working area.

**Personal protection:**

Precautions to avoid contact with skin and eyes are advisable when handling the product.

**Hand protection:**

Protection not required but recommended. Wear appropriate gloves to prevent skin exposure.

**Eye protection:**

Protection not required but recommended. Wear safety glasses with side shields.

**Industrial hygiene**

Change contaminated clothing. Wash hands after work with the product.

**General requirements:**

Eye and face protection: Use tight-fitting goggles, face shield or safety glasses with side shields if eye contact might occur.

Skin protection: Wear appropriate dust resistant clothing. Avoid skin contact. Use chemically resistant gloves.

Protective gloves: The glove material has to be impermeable and resistant to the product/the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Respiratory protection: See local exhaust ventilation around open tanks and other open sources of potential exposures in order to avoid excessive inhalation, including places where this material is openly weighed or measured.

Thermal hazards: Not available.

**SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES****9.1 Information on basic physical and chemical properties.**

Physical state:	Liquid.
Colour	colourless to pale yellow, possible turbidity
Odour:	characteristic
Melting point/freezing point:	No data
Boiling point:	No data
Flammability:	Not flammable
Lower and upper explosion limit:	No data
Flash point:	53 °C /the closed-cup method/
Auto-ignition temperature:	No data
Decomposition temperature:	Not applies
pH value:	5,57
Kinematic viscosity:	No data
Solubility in water:	Yes
Partition coefficient n-octanol/water (log value):	Not applies
Vapour pressure:	No data
Relative density/density:	< 1 (at 20 °C)
Relative vapour density:	No data
Particle characteristics:	Not applies

**9.2 Other information.**

Lack of other information.

## SECTION 10: STABILITY AND I REACTIVITY

### 10.1 Reactivity.

This mixture is chemically stable and presents no risk of reactivity.

### 10.2 Chemical stability.

When properly stored, the mixture is chemically stable.

### 10.3 Possibility of hazardous reactions.

No hazardous reactions have been observed.

### 10.4 Conditions to avoid.

Keep away from heat and sources of ignition.

### 10.5 Incompatible materials.

Avoid contact with strong acids, alkali or oxidizing agents.

### 10.6 Hazardous decomposition products.

The thermal decomposition may release / form the following products: - carbon monoxide (CO) - carbon dioxide (CO<sub>2</sub>).

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008.

Acute toxicity:	Does not meet the classification criteria.
Skin corrosive/Irritating effect:	Does not meet the classification criteria.
Eye damage/irritation effect:	Does not meet the classification criteria.
Respiratory or skin sensitization:	Does not meet the classification criteria.
Mutagenic effects:	Does not meet the classification criteria.
Carcinogenicity:	Does not meet the classification criteria.
Effects on reproduction:	Does not meet the classification criteria.
STOT-single exposure:	Does not meet the classification criteria.
STOT-repeated exposure:	Does not meet the classification criteria.
Aspiration hazard:	Does not meet the classification criteria.

### Toxicological properties of hazardous substances in the mixture:

Methyl salicylate: Oral LD50: 867 mg / kg (rat)

#### Acute:

Eye irritation: May cause serious eye irritation.

Skin irritation: May cause skin irritation.

Swallowed: May cause gastro-intestinal irritation with nausea and vomiting.

No ecological problems are to be expected when the product is handled and used with due care and attention.

Do not allow to enter into public sewers and watercourses.

### 11.2 Information on other hazards.

No other data.

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1 Toxicity.

This mixture has not been tested. Based on the available information on ingredients, the mixture was not classified as hazardous to the environment.

### 12.2 Persistence and degradability.

There are no data available on degradation in the environment via biodegradation or other processes for the mixture.

### 12.3 Bioaccumulative potential.

There are no bioaccumulation data available for the mixture.

### 12.4 Mobility in soil.

There are no data on mobility in soil for the mixture.

### 12.5 Results of PBT and vPvB assessment.

Does not meet the criteria for PBT and vPvB.

### 12.6 Endocrine disrupting properties.

Does not meet the criteria for endocrine disrupting properties.

### 12.7 Other adverse effects.

Not available.

## SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1 Waste treatment methods.

Product: Do not empty into drains. This material and its container must be disposed of in a safe way. Disposal should be in accordance with local, state or national legislation. Do not pour the mixture into the sewage system. In order to remove used packaging and waste mixture, contact an authorized waste disposal company.

## SECTION 14: TRANSPORT INFORMATION

ADR / RID

### 14.1 UN number or ID number.

Not applicable.

### 14.2 UN proper shipping name.

Not applicable.

### 14.3 Transport hazard class(es).

Not applicable.

### 14.4 Packing group.

Not applicable.

### 14.5 Environmental hazards.

Does not meet the criteria.

### 14.6 Special precautions for user.

Not applicable.

### 14.7 Maritime transport in bulk according to IMO instruments.

Not applicable.

## SECTION 15: REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations/legislation specific for the substance and mixture.

**Regulation (EC) No 1907/2006** of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.

**Regulation (EC) No 1272/2008** of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).

**COMMISSION REGULATION (EU) 2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) **Classification of dangerous goods** according to the European Agreement concerning the international carriage of goods by road hazardous (ADR). European directive on waste.

### 15.2. Chemical safety assessment.

Chemical safety assessment was not performed for this mixture.

## SECTION 16: OTHER INFORMATION

This product should be stored, handled and used in accordance with good industrial hygiene practices and in conformity with any legal regulations. The information contained herewith is based on the present state of our knowledge and is intended to describe our product from the point of view of safety requirements. It does not guarantee any specific properties. It does not assure any safe conditions of work if used out of line of normal handling or inconsistently with normal ways of application and occupational practices.

Classification according to Regulation (EC) No. 1272/2008	Classification procedure
Not applicable	Not applicable

### Hazard Statement Code(s)

H302 Harmful if swallowed.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H318 Causes serious eye damage.

H319 Irritating to eyes.

H361 Suspected of damaging fertility or the unborn child.
